Either specify the URL from the command-line or configure a remote repository using

    git remote add <name> <url>

and then push using the remote name

    git push <name>

Logré crear y conectar el repositorio local con el de github, pero cuando quiero mandar los archivos hacia github usando push me aparecen errores. Ya trate de configurar tanto el nombre del usuario y el email, pero nada más no manda el archivo. Adjunto imágenes de los errores.
